INTERNSHIPS

Cyber Blockchain Club

Co-Head of Cyber Security Wing | August 2025 - Present

Co-Head of Network Security Wing | August 2024 - 25

Facilitated **hands-on workshops** covering topics such as Linux, Web Penetration, Security Tools and Blockchain to enhance technical expertise. **Hosted CTF** competitions, reinforcing practical cybersecurity skills and awareness.

Deepcytes

Intern | March 2025 - Present

Conducting research on **AI-driven threats**, **dark web intelligence**, and **counter-surveillance**; supporting legal and policy cases with insights on **cyber risks**, **compliance gaps**, and **digital forensics**.

Rosche System

Intern | Feb 2025 - Present

Research on vulnerabilities. Pentesting.

Cyber Crime Department, Indore

Intern | 16 Dec - 24 Dec 2024

Observed investigations into **phishing**, **QR scams**, and **WhatsApp hacks**. Gained hands-on exposure to **digital forensics** and **social media tracking**. Analyzed **10+ cases** to inform local cybercrime prevention efforts..

Cisco Virtual Internship

Intern | May - July 2024

Completed hands-on training in **networking and cybersecurity fundamentals**. Designed **secure network topologies** and **practiced device configurations** and troubleshooting using *Cisco Packet Tracer*.

Cyber Secured India Internship

Intern

Gained practical experience in **core cybersecurity concepts**, including **system/network security**, **offensive and defensive techniques**, and **Linux fundamentals**. Applied skills through hands-on labs and real-world simulation exercises.

PROJECTS

NexGuard

Designed a secure, **AI-based system for real-time fraud detection and behavior analysis**. Utilized knowledge distillation, time-series RNNs, and explainability tools (LIME) to ensure efficient and transparent decision-making.

TraceProbe

A real-time analytics tool for law enforcement to detect suspicious patterns in massive IPDR logs using Kafka and Flink. Developed for a cybersecurity hackathon to aid in digital forensic investigations.

EDUCATION

BTech in Computer Science and Engineering

Symbiosis Institute of Technology, Pune

Score: 7.7/10

SKILLS

VAPT | OWASP | Network Security | Digital Forensics | Cryptography | OSINT | SIEM Tools | Ethical Hacking | Web-Pentesting | ML | Linux | CTF | Web-Development | Azure | Firewall | Mitre ATTACKS |

Tech Stack

Python | Bash | Java | cpp | React | NestJS | MySQL | MongoDB | Wireshark | Cisco Packet Tracer | Ollama | Metasploit | Burpsuite | Autopsy | Nmap | Nessus | Splunk | OWASP-ZAP | Ollama

KEY ACHIEVEMENT

2nd Position in Women’s CTF

IITB Trust Lab | 29th March 2025

3rd Position in Operation Cipher Shadows

IIT Jammu | 11th April 2025

2nd Position in Cyber Security and Blockchain Hackathon

Cyber Secured India and India Blockchain Alliance | 15th-18th September 2023

Quantum Computing Odyssey: Teleporting to the Realm of Unparalleled Possibilities

Research Paper Published in 2024 International Conference on ADICS.

CTF AND Hackathons

NPIIPC-AICTE Pentathon 2025

Rank: 500 out of 3500 | 5th-6th April 25

CyberShield Hackathon

MP Police

Network Intrusion System

Developed a **Rule-based Network Intrusion Detection (NID)** system incorporating real-time packet inspection, slashing network breaches by 15% and flagging 200+ suspicious packets daily.

CERTIFICATES

Junior Penetration Tester (eJPT)

INE Security

Google cybersecurity Professional
Certificate

Coursera

Cisco Cyber Security Course
